

REHIS Elementary Health & Safety Training

Duration: 1 Day

Cost: price on enquiry

This Royal Environmental Health Institute of Scotland Elementary Health & Safety Course is designed as a first level qualification. It is designed to provide practical information and advice to ensure safe work places and ensure work activities are carried out safely.

As financial and social costs of accidents, in terms of lost working days and pain & suffering to individuals, are huge, training is vital in achieving safe working practices and reduction of costs.

Topics covered are as follows:

- Health & Safety at Work
- Accidents & Ill Health
- Safety in the Workplace
- Occupational Health.

Candidates receive a course booklet containing all required information and will, immediately after the course, sit a 30 minute multiple choice examination.
